PROFESSIONAL SUMMARY

Results-driven Information Systems graduate with a Bachelor of Commerce Honours degree in Information Systems from the University of KwaZulu-Natal. Skilled in software development, web development, database management, and systems analysis with hands-on experience developing desktop, web, and mobile applications using C#, ASP.NET, Java, SQL Server, MySQL, WordPress, and Android Studio. Passionate about building scalable software solutions, improving user experiences, and solving real-world business problems through technology.

Through academic and personal projects, I have gained practical experience in object-oriented programming, application development, database design, software testing, debugging, and problem solving. I am eager to apply my technical knowledge in a professional environment, learn from experienced developers, contribute to development projects, and grow into a skilled software development professional.

CAREER OBJECTIVE

To obtain an internship or any other entry level position where I can apply my programming, database, and systems development skills while gaining practical industry experience. I am particularly interested in contributing to the development, testing, maintenance, and improvement of software solutions while continuously expanding my technical capabilities.

EDUCATION

Bachelor of Commerce Honours in Information Systems & Technology | 2025

University of KwaZulu-Natal

Relevant Areas:

- Information Systems Development
- Software Development
- Systems Analysis and Design
- Database Management
- Business Intelligence and Data Analytics
- Information Technology

Bachelor of Commerce in Information Systems & Technology | 2020 – 2024

University of KwaZulu-Natal

Relevant Areas:

- Programming
- Database Management

- Systems Analysis and Design
- Web Development
- Information Systems
- Software Development
- Data Analytics
- Information Technology

National Senior Certificate | 2015 – 2019

Ladysmith High School

TECHNICAL SKILLS

- **Programming Languages:** C#, Java, HTML, CSS, JavaScript (Basic), SQL
- **Frameworks & Technologies:** ASP.NET, .NET Framework, WordPress, WooCommerce, Android Studio, XAMPP
- **Database Management:** SQL Server, MySQL, Database Design, Data Modelling, Query Optimization
- **Software & Development Tools:** Visual Studio, SQL Server Management Studio (SSMS), GitHub, Microsoft Office Suite
- **Core IT Competencies:** Object-Oriented Programming (OOP), SDLC, Systems Analysis & Design, Troubleshooting & Debugging, Networking Fundamentals, Cybersecurity Fundamentals, Team Collaboration

PROJECT EXPERIENCE

School Management System | 2025

Technologies: C# / ASP.Net / SQL Server / Visual Studio

- Developed a database-driven web system using ASP.NET and C#.
- Implemented functionality for managing and displaying information through a web-based interface.
- Integrated database functionality using SQL.
- Applied systems analysis, programming, and database development principles.
- Tested application functionality and resolved development issues during implementation.

To-Do List Android Application | 2025

Technologies: Java / Android SDK / SQLite / Android Studio

- Developed a functional Android task-management application using Java.
- Implemented features for creating, editing, deleting, categorizing, and filtering tasks.
- Integrated SQLite for local database storage.
- Implemented task-priority functionality and visual priority indicators.
- Developed reminder functionality using AlarmManager and BroadcastReceiver.
- Applied Android development principles to create an interactive and user-friendly application.

South African Attractions Android Application | 2025

Technologies: Java / Android SDK / RecyclerView / Android Studio

- Developed an Android application for displaying information about attractions in South Africa.
- Implemented RecyclerView to dynamically display attraction information.
- Implemented a Spinner-based city selection feature.
- Applied Java programming and Android development principles to develop application functionality.
- Focused on creating a structured and user-friendly mobile application.

Point-of-Sale & Inventory Management System | 2024

Technologies: C# / Windows Forms / ASP.NET / SQL Server / Visual Studio

- Developed a database-driven Point-of-Sale and Inventory Management System for a café environment.
- Designed and implemented application functionality using C# and Windows Forms.
- Developed functionality for managing products, inventory, sales, and related business information.
- Designed and integrated a SQL Server database for storing and retrieving application data.
- Applied object-oriented programming principles throughout the development process.
- Performed testing and debugging to identify and resolve application errors.
- Applied systems analysis and software development principles to address business requirements.

E-Commerce Clothing Store | 2024

Technologies: WordPress, WooCommerce, XAMPP

- Built an e-commerce website using WordPress and WooCommerce.
- Configured products, categories, and e-commerce functionality.
- Used XAMPP as the local development environment.
- Applied web development principles to customize the website and improve functionality.
- Gained practical experience with web-based systems and e-commerce technologies.

ACADEMIC RESEARCH EXPERIENCE

Honours Research Project

University of KwaZulu-Natal

Research Topic: The Adoption of E-Commerce by South African Consumers Before and After the COVID-19 Pandemic

- Conducted a desktop-based qualitative research project investigating technology adoption among South African consumers.
- Conducted systematic academic research and literature analysis using Google Scholar.
- Analyzed and synthesized information from multiple academic sources.
- Applied the UTAUT theoretical framework to examine factors influencing technology adoption.
- Developed research questions and a structured research methodology.
- Demonstrated strong analytical, research, information-management, and problem-solving skills.

ADDITIONAL INFORMATION

Languages: English, IsiZulu

Availability: Available immediately

Driver's License: Code 10

Professional Strengths: Analytical Thinking, Strong Communication Skills, Fast Learner, Adaptability, Attention to Detail, Time Management, Team Collaboration, Problem Solving
